## STRATHCONA NEWS THE STRATHCONA PLANS FOR THE CITY COUNCIL

Regular Meeting Held Last Night  
—Bylaws Passed and Notice of Others Given.

The regular meeting of the Strathcona city council was held last night. Ald. McKenna was the only absentee. Considerable business was transacted, but some matters on which committees were expected to make recommendations were not ready and progress only was reported.

W. H. Clark & Co., Ross Bros. Ltd., and the Canadian Westinghouse wrote asking for payments on accounts which they claimed were due. The letters were filed.

J. G. Tipton, solicitor for H. Stollery, wrote asking that the streets and lands of block 2 of the Martin subdivision be laid off as he intended building on his property there. The letter was referred to the public works committee.

James J. O'Neil, secretary of the board of trade, asked that a room for the secretary be given at the city hall. He pointed out that a month rent would thus be saved from the money of the board which was limited. This letter was referred to the market and city hall committee.

Chief License Inspector Dahl, Edmonton, wrote to inquire who was the Strathcona inspector. The secretary treasurer will reply that it is the chief of police.

Letters filed written by the mayor to P. G. Todd, the landscape artist, asking for a plan for the city, and to the license inspector requesting him to take action to compel observance of the license law as ordered at last meeting were read and filed.

C. S. Lett, agent for the C. & E. promoter, wrote to Mr. Sanderson, who was forwarded to the council, stating that it was impossible that the owners would consent to selling lots 7, 8, 9, 10, 11, 12, 13, ## THE CONFIDENCE OF EDMONTON

Every spring brings to the westward the "biggest year on record." Almost invariably his sanguine expectation has been justified. Year after year in the long nights of winter his cogitations have been of the future. "Will this tide of prosperity reach the flood this season?" There is a grounded fear in the heart of every man that good times cannot always last. There seems to be an economic heredity rooted in the imagination of the average man that good times and bad follow each other every seven years, like the seven lean and fat years of Pharaoh's dream. But with the annual rush of the Saskatchewan when freed from its icy fetters, the rush of immigration begins, the rush of new building, new capital and new railway construction, and the pessimist and the croaker is refuted or converted. The sanguine spirit asserts itself, and permeates the whole community—all of which is reflected in renewed building enterprises and promising business conditions.

Property in all parts of Edmonton has considerably risen in value, even during the winter. Building material is said to be more expensive. Industrial and railway development will make unusual demands upon the labor market. But hopefully and confidently the men of judgment and experience declare this season will surpass all records.

The real estate market, a very sensitive indicator of business conditions, retains its saneness and justifies the upward fluctuations which are bound to be verified by the events of the coming year.

Property in the heart of the city commands a higher price than it did three months ago.

The character of the proposed buildings are generally of a higher class than those of other years. Manufacturers are laying plans and making investments that are calculated to give stability to local trade conditions. Notwithstanding the present financial stringency in the east, and a continued rise in realty values during the last four years, the demand for property is greater to-day than ever before. When property is increasing in value in the business area of the provincial metropolis, there are weighty reasons that pre-empt a vigorous and healthy situation and abundantly justify the confidence of our citizens.

## A MINISTER OF TRUE PUBLIC SPIRIT.

Hon. Mr. Cushing's visit to the scene of the conflict between the coal miners and the operators is to be commended. Those who have followed the career of the Minister of Public Works know that he is a public-spirited man. He is ever anxious to assist the people. He has manifested this spirit in more ways than one. So it was only natural that he should pay a visit to Fernie to use his best endeavors to assist in settling the differences between the employees and the employers of the many coal mines that are now idle. The continuance of this trouble means the demoralization of the business of this province. It means a tie-up of our railroads and the closing of many of our manufacturing plants.

What more natural than that a number of the government of Alberta, who, from the very day they took the reins of office, have shown by their legislation that they have the welfare of the people at heart, should use his best efforts to bring peace in the warring mining camps. The settlement of such a trouble means a great deal to the prosperity and progress of this province, and it is the business of the government, representing the people, to make an attempt to bring about peace. They are not idly by and allowed the struggle to continue without an effort being put forth to bring the parties to an understanding. There would be negligent in their duty to the citizens of this province. It is not, as a Fernie despatch says, "the meddling of politicians," but the honest desire of a public man to bring industrial peace and prosperity to the province, of the government of which he is a very valued and important member.

## THE THAW TRIAL.

The Thaw trial has revealed generous spots in the social life of New York, and in the administration of the criminal law of the State. Historians are wont to compare the republic of the United States with that of Rome. In many respects the parallel is striking, but nowhere is the

parallel so deadly as in the power of wealth to prostitute society. It is discouraging to find a disease that seemed to be a product of old civilization recurring in a new civilization upon which so many high hopes are embarked.

Wealth, like fire, is a good servant but a bad master. In a land of freedom and honest labor, of boasted social and political equality, with education and opportunity for useful public service, Harry Thaw's millions made him a debauched idler, a member of a social clique composed of equally debauched and servile classes ministering to their pleasures until satiated last made their influence a scourge.

The long-drawn-out trial with its fine-spun, technicalities, its network of uncertainties, its mass of irrelevant evidence imported into the premises of the argument, the distortion of every rule admitting evidence to the limits of absurdity is a blot on the legal procedure of the Court, and a scandal upon justice itself. By such devices prostituted wealth was rendered immune from the consequences of the law of murder, and a premium put upon crime by a rich man, who aided by astute counsel, was able to thread his way through the maze of criminal law from the gallows, thus reducing to a mockery the boast that all men are equal when they stand before a jury.

The rich conventionalist still remains a fundamental law that should never be abrogated. In this connection Golden Smith makes the following pertinent observation:

"The sacredness of human life is the keystone of all civilization. There is a tendency to shrink from the infliction of capital punishment. In some countries it has been abolished, and France seems likely to be added to the number. The same people who sign petitions for the reprieve of a murderer are ready to shout for a law in which a hundred thousand lives may be sacrificed. The sacredness of solitary imprisonment for life is taken to be a measure of mercy. It is more probably a measure of cruelty. No mental agony can be conceived greater than that of endless confinement and solitude. When a man has the mark of Cain upon him, it is best for him, as well as for society, that he should be put out of the world."

There is a deep and wide interest in this case which concerns all who are interested in the problems of civilization on the basis of a wholesome democracy. Will the nation be able to cure itself of this evil? The republic has a grave occasion for calling upon the wisdom and moral sense of her citizens. We believe she has a reserve of nobility to answer the call.

## NOTE AND COMMENT.

Alberta and New Zealand lead the way for the rest of the empire.

Socialism is a vision of equality and fidelity in a world of inequality and selfishness.

The press has nabbed Foster for misdeemeanors that are too intelligent for the police.

The German Emperor has 19,000 neckties—a fair supply for his quantity of "necks."

Alberta is a youngster, but the telephone is not to be a toy for it to play with. It is to be a convenience for the people.

Russian newspapers are fighting for the liberty that will cause them to point an item announcing the picnic of the Epworth League.

Decay of religious belief in the warring classes is a element that is always associated with industrial discontent and disturbance.

Operations of the Peace Congress should be enlarged to apply to the Honorable title of Colonel Sam Turpin Hughes and Henri Bourassa.

A lynx was shot in the street of Edmonton the other day. It is supposed it came from Calgary and was looking for the man who looted the university at St. Catharines.

We'll soon be able to talk over the phone with our friends in Canmore, Dayland, Stettler and Alia. How is that for a government only eighteen months old?

Millionaires are not wrong. The trouble lies in the millions. The millionaires are the outcome of an age of gigantic commercial enterprises which with commercial concentration has eliminated the middleman with ultimate benefit to the consumer.

No other available route to this magnificent northern empire of boundless wealth.

It is dead sure certain that the timber resources along the upper Athabasca are in themselves sufficient to make Athabasca Landing a great, world famous lumbering centre. All the thousands and tens of hundred thousands feet of fine standing timber along the McLeod, Eagle and other timber tributaries of the Athabasca River must necessarily be saved at the landing; thus this rapidly growing town is destined soon to become an active, progressive and enterprising, manufacturing city of the last Northwest.

Present population exceeds 1,000 inhabitants, 2 hotels, one chartered bank, several general stores, warehouses, shipyards sawmills coal mines, natural gas in unlimited quantities, excellent water power, a score or more trading post headquarters for as many different fur trading, mining and exploiting companies who use the Landing as the base of supplies for their extensive northern operations. The Hudson's Bay Co., Revillon Bros., and others keep large quantities of general merchandise stored at this point. This hustling community is only 98 miles north of Edmonton and connected by the best and most dependable stage service in the prairie provinces.

Will be Third City in the Province in Five Years

## COL. SAM HUGHES BERATED PRIESTS

And was in Turn Berated, by  
French Members of House  
and Others. Borden Failed  
to Smooth Things Over.

(From Our Own Correspondent in the Press Gallery.)  
Ottawa, April 15.—Col. Samuel Hughes, of Victoria and Halifax, took a fall out of each other today. Mr. Borden tried to smooth down the belligerents with one hand, and hold back the mob with the other, but Talbot, of Bellechasse, pushed him aside and a half dozen more members got into the fray. The noon recess intervened since the first round, however, and the scrimmage was a tame affair.

The Cause of the War.  
During an immigration debate a few days since, someone asked if any of the priests who are now leaving France were coming to Canada. Col. Hughes took the occasion to express the belief that, if so, the priests "would be a curse to the country."

Bourassa After the Col. Hughes.  
This aroused resentment in the breast of Mr. Bourassa, and the morning he went after Colonel Sam, forcing either an apology or a fight. The general temper of his remarks may be judged from the fact that he categorically declined to refer to Col. Hughes as "My honorable friend" and substituted the optional but decidedly less amiable term "honorable member for Victoria and Halifax," altogether his effort was a pretty fair imitation of the customary verbal prelude to a personal encounter.

Borden to the Col. Hughes' Rescue.  
This incident closed at noon, and when the House re-assembled the leader of the Opposition tried to choke off the debate, and let his supporter, Mr. Victoria out of the corner. He gently but firmly dissented from the col. Hughes' words, believing that they would be retraced on either re-jection, and tried to sidetrack the matter by bringing in an entirely different subject. This was not to the programme, however, and Talbot, of Bellechasse, raised his voice, and Mr. Borden suggested that it would be better to have the subject ended than to have the expectation of a second installment. Mr. Borden consented smiling at his discomfiture, and the bout went on.

Pretext against the insult.  
Hon. R. Lemieux protested as strongly as words could be made to do so against the insult of the member for Victoria, and trusted that it would be withdrawn in a calmer moment. Priests from France had done splendid service in critical times in maintaining Canada to the Empire, and deserved no such gratuitous affront.

The Col. Hughes' "Loyalty."  
Mr. Talbot, of Bellechasse, quoted an "aide" from Colonel Hughes, more insulting still than the quoted remark, and stated the col. Hughes' crying the House the clergy whose champion he professed to be when on the stump. Col. Hughes, who now looked of loyalty, had said a few weeks ago he would fight for annexation. If the Opposition ever came to power Col. Hughes would supposedly be minister of militia, which sentiment would then sway him?

Not a Policeman.  
Mr. Bergeron accused himself for not castigating Col. Hughes by saying he was not a policeman. He had, however, reasoned with him, and was convinced the col. had not intended to insult either the (Bergeron) race or religion.

The Col. Hughes' Conviction.  
C. R. Devlin, of Nicolet, said the reasoning of Mr. Bergeron had apparently had little effect. He was convinced the col. had made his attack merely to catch votes in Victoria constituency. The speaker said that he must not impute motives, and Mr. Devlin changed his remark. He would retract the statement that this was Col. Hughes' motive, and admit that it was a conviction.

No Retraction.  
Colonel Sam informed the House that he was neither a brigadier the forum nor a coward in the field, and was appalled, dejected or otherwise. He had just written two letters to Le Canada in defence of the clergy. He repeated his version of

the South African war and the Canadian contingents, and said down with withdrawing or mollifying his language toward the priests.

Close the Whom Due.  
Mr. Bourassa rose to apologize to Hon. Jos. Chamberlain and Lord Milner, whom he had formerly accused of causing the South African war. He now understood that Colonel Hughes was the promoter.

This closed the debate and Mr. Borden went on with his interrupted remarks.

### WALL STREET BROKER ARRESTED.

Charged With Complicity in the Theft of Trust Co. Bonds.

New York, April 23.—Another step intended to explain the disappearance of bonds valued at about \$40,000 from the Trust Co. of America, was taken by the police tonight when they formally placed in custody, O. M. Bennett, a well known Wall street broker, who was formerly prominent in Boston financial circles. Wm. O. Douglas, an assistant loan clerk of the trust company, is already under arrest charged with theft of the bonds, and the warrant upon which Bennett was detained by detectives alleged the receiving of stolen goods. It is charged that he collected \$10,000 from Rock Island and Pacific Railway company, each valued at \$1,000, and of issue of the bonds. It is complained also that Bennett knew that the bonds were stolen, and he had been arrested for the same. The arrest of the broker had been foreseen by the police, and they preferred to the police by officers of the trust company after their investigation of the larceny and because of the alleged recovery of \$20,000 worth of missing securities in Bennett's room at the Manhattan club yesterday.

After being examined at the detective bureau Bennett was placed in a cell for the night. He is listed by his attorney, Forbes J. Hennessey, who said on leaving. Mr. Bennett will make any statement tonight. One who probably he is to see tomorrow. The lawyer added that no attempt will be made to secure bail tonight. Bennett will be given a hearing tomorrow, at which time Douglas will appear for examination. Bennett formerly was a member of the Boston stock exchange, and was a member of a brokerage firm which assigned in that city in 1903.

### SOCIALISTS SCARED OFF.

In Brussels Demonstration by Appearance of Troops.

Brussels, April 23.—King Leopold today held a lengthy conference with M. D. Tross, the minister of the interior, who has been attempting to form a new cabinet, and in well informed circles it is considered certain that he will accomplish his task. Troops were camped in the night in Laeken park owing to threats by socialists to march on to the palace. After midnight the socialists held a meeting at which violent speeches were delivered, but the presence of the troops in the park probably caused the leaders to change their minds.

### SUIT AGAINST LAWSON.

For \$3,000,000 Damages is Now in the Courts.

Boston, April 23.—The suit of the Copper Range Consolidated Mining company against Albert C. Burrage, Thomas W. Lawson and others, in which damages aggregating \$3,000,000 are asked, was opened today before Supreme Court Judge Loring. The restoration by the defendants of 75,000 shares of the company is named as an alternative of the damages claimed.

### JUDGE KILLED YOUNG MAN.

Whom His Daughter Said Had Drugged and Assaulted Her.

Lynchburg, Va., April 23.—Judge W. G. Loring, who late yesterday afternoon shot and killed Theodore Estes, at Chabridge, the county estate of Thos. F. Ryan, was today admitted to \$10,000 bail. Charging Estes with drugging his daughter Elizabeth, aged 19, and assaulting her while in a drugged condition, after learning she alleged incident from the lips of his daughter, Judge Loring drove some eight or ten miles before finding the young man, and he shot and killed him with a double barrelled shot gun, without waiting for the victim to make any explanation.

### FOR EDUCATION OF NEGROES.

### SPORTING NEWS

#### NEW HOOKEY LEAGUE.

Winnipeg, April 22.—The big international hockey league, including the Houghton, Calumet, American and Canadian teams and Pittsburgh, is to take a decided change in circuit, according to the latest dope now being dealt out in this country and the United States. The International league will lose Pittsburgh, which will throw in her lot with Montreal, Ottawa and other teams of the eastern, and the remainder of the old circuit will be known as the Northwestern, taking in Columbus, Ohio, and perhaps Cleveland, although the latter town will not get in within two years at least. Chicago, a team from the two cities of St. Paul and Minneapolis, in Miami, one from Winnipeg and another from Kootenay, the home of the famous Red Wings or Seneca Thistles, who held the championship of Canada the greater part of the season just ended. It is also probable that Duluth will be embraced in the circuit, although not till a hockey rink is built in that city, which will likely delay the entrance of a team for two winters. Then there is more talk of a big team being put in from Detroit and of the building of a covered hockey rink in that city, artificial ice to be used, as will be done at Cleveland and Columbus.

The idea has so far progressed with

the proposed backers of the Chicago team that a manager has been engaged for next season. The famous Alf Smith, who played with the champion Ottawas when they held the Stanley Cup, and who later went to the Kenora Thistles in western Canada, went to Chicago last Monday and will play lacrosse in that city or in St. Paul this summer. Smith has always been counted as one of the seven greatest hockey and lacrosse players of the Dominion. He is now in communication with the managements of the Chicago and St. Paul lacrosse clubs.

#### RULES MAY WORRY MANY.

New York, April 23.—New rule book just issued contains some funny interpretations that will cause many a poor minor league umpire trouble. All umpires do not receive the instructions like those of the National or American leagues, nor do they attend meetings called by the presidents of the two leagues to debate upon the rules as laid down.

In one part of the book just issued, under the title "Simplified Baseball Rules," one finds this: "When a ball hits the batsman or the umpire before the catcher touches it the umpire must declare it a dead ball and no base runner can advance." If the bases were filled with runners, and the batter was hit by a pitched ball,

what becomes of the man on third? Is he to remain?

Again: "A base runner hit by a legally pitched ball in fair territory is out. The batsman, however, must run to first, but may be put out if it is possible to do so." Then under section 6, rule 85 it says: "If a fair ball strikes the person of the umpire or a base runner on fair ground." Which is correct?

Another place, under "Batting Rules," it says: "Before two men are out, if a batsman pops up a fly to the infield, with second or first, or second or third bases occupied, the batsman is out if the umpire calls it an infield hit." Why call it an infield hit, when second and third bases are only occupied? The rule does not say so, but the interpretation says it is.

#### BASEBALL.

The Northwestern league has a couple of one-sided big league stars on the umpiring staff this year. They are Tim Mallam and the only "Piggs" Ward.

Frank Laporte, the Yankee third baseman, who led the Eastern league in batting while a member of the Buffalo team in 1926, made a triple, a double and a single in the opening game at Washington.

Clark Griffith figures his chances for the pennant this year depends on the showing for the first month. The Highlanders have to make a complete circuit of the American league cities shortly.

Al Orth differs from some pitchers regarding the spit ball. He does not think it injures his arm in the least, but he says the pitcher who has a wind-up delivery and lets his arm go at full length never should use it.

The Lethbridge fans are sore on the city council because the aldermen refused to vote \$200 to help defray the expenses of T. A. Humphries, who goes along with the spring trip as business manager and publicity agent. The city fathers only voted \$100 and if \$100 more is not put up from other parties T. A.'s trip will be off.

City fans will hear with satisfaction that Bill Settler, who was in partnership with Geo. Adams at the Pan cigar store up till the business was sold, has caught on as an umpire in the Third League and will make his initial appearance at Peoria, Ill., in a few days. Bill has all the earmarks of making good on the job.

Pitman, the amateur pitcher with Wetaskiwin last year, and who has signed an Edmonton contract has not turned up at Spokane yet, and it is not certain that he will perform in an Edmonton professional uniform this year. If he does not play with the big team here the Edmonton II will have the services of a great bow artist.

Another matter which the Winnipeg team is taking up is the possession of

Pitcher Bushelman. Little Rock of the Three-League claims Bushelman and the case is now in the hands of Secretary Farrell, of the National Commission. Bushelman signed with the Maroons before the team disbanded last fall and just where the Little Rock team has any claims on his services is hard to understand.

Now that the active season is about to open a gentle reminder to the diamond heroes is in order. It is not what they have done in the past, but what they will do in the future that will henceforth count with press, public and employer. To this end condition is vitally important and now is the time to acquire that desideratum. A hint to the wise is as good as a kick.

#### EDMONTON'S REP. O. K.

Fernie Ledger: A meeting of the Fernie baseball club is called for Tuesday evening at 8 o'clock at the Peoria hotel. Deane White, of the Edmonton fletchers, has written a party in town that he would like to have a game with Fernie on the team's trip from Spokane. Edmonton is said to have a good team this year and should give the boys a good practice. Edmonton has also been known as a more sportmanlike bunch than Calgary, so Fernie people must not conflict the two towns.

#### LETHBRIDGE EXHIBITION GAMES.

John W. Morrison, manager of the

Lethbridge professional baseball team, has now completed a list of pre-season dates for the period between April 27 and May 15. After the latter date the team will start for Lethbridge, playing a number of games on the way. The team will shortly rendezvous at La Crosse. The dates so far arranged are as follows: La Crosse, Wis., April 27—May 5, St. Thomas College, St. Paul, Minn., May 6, Hibbing Minn., May 8-10, Duluth, May 11-12, Winnipeg, May 13-15.

#### LACROSSE.

President Carhold of the N. L. U. picks Montreal to win the big eastern lacrosse championship this year.

Lethbridge will organize on Thursday night. The projects are for a better team than ever this year.

Replies so far received from lacrosse clubs indicate that the proposal to form a Saskatchewan league will bear fruit.

Yellow Grass team, which won the championship in the Soo Line league last year, will play in the Saskatchewan association this year.

Lacrosse is to be located in Buffalo, Detroit, St. Paul and Chicago this year, and some of the best Canadian players will perform in these cities.

It cost Nationals, Montreals and

Shamrocks about \$700 each to run their intermediate teams last summer. The teams had to travel to Sherbrooke and Quebec and got practically no sale receipts at home.

Regina club does not know where it is at as respects the series in which it will appear, but has communicated with the Seattle and Winnipeg clubs respecting the formation of a series.

Latest news from the East is that Alf Smith, the great Ottawa hockey and lacrosse player, will perform in St. Paul this year and may induce Johnny Power, the crack Ottawa inside home to play with him. Smith plays outside and Powers, inside home, and are the two best scorers in the business.

Telegram: Harry Latham and Tom Gifford, the last of New Westminster's great team who cleaned up the east in 1926, have decided to go to the barn for good. And one wonders what has become of good old Bob Cheyne. It looked at one time as if he and Billy Patterson would last forever. But every lacrosse player has his day, even if some days are longer than others.
